Report results for a specific student

By reporting results for a specific student you can, for example:

- Find the student more easily, by searching for the student in Ladok instead of looking for the student in the list of all students who has participated on the course instance
- · Report and certify results in the same view
- Report and certify results on <u>all versions of the course</u> that the student has attended
- · Remove results from any course versions that the student has attended
- · Change a certified result (instructions on Ladok.se)

- 5. Save (Keyboard shortcut: Ctrl + S)
- 6. Mark as ready, select grading teacher and which examiner who should certify the result.

You are now finished with reporting the result. The examiner you selected will get an email from Ladok within 30 minutes and will get a shortcut from their home page to the result you reported.

Certify the result

IF you're going to certify the result yourself, you don't need to notify yourself when marking the result as ready. Click on **Certify** to certify the result. Ladok may request that you log in again.

A

The final result on the course is always reported in the latest version of the course

The student must have received a passing grade on modules that at least sum up to the total scope of the course on order to receive a final result on the course.

Enter modules required for a final course result

If the student has received results on modules from different versions of the course, you must first enter which modules that are required for a final course result.

1. Search for the student from the home page

2. In the overview of the student: Click on the course you want to report a final result on
