

Individual study plan:

Create and update a new version

New versions of the individual study plan (ISP) are created according to a workflow specific to each university in Ladok. This guide shows an example a workflow.

Content	Page
Create new version of ISP	2
Update the new version	3-4
Description of each tab you work in	
• Basic information	6-9
• Supervisor conversation	10
• Thesis work	11-14
• Courses and conferences	15
• Learning outcomes	16
• Timeplan	17-18
• Supervisor and decision-maker	19

Create new version of ISP

The first version of the ISP is created by the administrator. The version is then updated and established.

After that, staff can create new versions following the instructions below.

Create a new version of the ISP:

1. Go to the doctoral student's page
2. Go to the tab "Individual Study Plan"
3. Click "Fetch latest version of process"

A new version has now been created.

The screenshot shows the 'Individual study plan' page. The top navigation bar includes tabs: Overview, Participation, Individual study plan (selected), Study plans, Cases/Decisions, and Student information. Below the navigation bar, the page title is 'Individual study plan' followed by 'Ongoing' and 'Version: 1 Established'. The left sidebar has a 'Workflow' section selected, with sub-items: Basic information, Supervisor conversation, and Thesis work. The main content area shows the 'Workflow' section with a dropdown menu set to 'Version 1'. Below the dropdown is a blue button labeled 'Fetch latest version of process'. At the bottom, a light blue box contains the text: 'There is no started version of the individual study plan. To start a new version: cl'.

You can choose which version to view at the top of the page "Workflow".

- Select a "Not established" version to continue working on it.
- Select an earlier version to view the finalized study plan.

The screenshot shows the 'Individual study plan' page. The top navigation bar includes tabs: Overview, Participation, Individual study plan (selected), Study plans, and Cases/Decisions. Below the navigation bar, the page title is 'Individual study plan' followed by 'Ongoing' and 'Version: 2 Not established'. The left sidebar has a 'Workflow' section selected, with sub-items: Basic information and Supervisor conversation. The main content area shows the 'Workflow' section with a dropdown menu set to 'Version 2 (Not established)'. Below the dropdown, the text 'Version 2 (Not established)' is displayed. At the bottom, there are links: 'Manage reference number', 'Download PDF', and 'Download PDF'.

Update the new version

Staff and doctoral students collaboratively work to update the new version of the ISP. They access the same information but through different interfaces.

Current work task

In the "Current Task" section, there are instructions on what needs to be done now. The actual handling is then carried out in the various tabs (see [page 5](#) and onwards).

Update the new version (cont.)

Proceed in the workflow

Only the role responsible for a task can complete it. The options to complete a task may vary:

- If there's a single option: the task is completed, and the next one begins.
- If there are choices: one can, for example, choose to advance to the next task or send it back to a previous step.

Description of each tab you work in

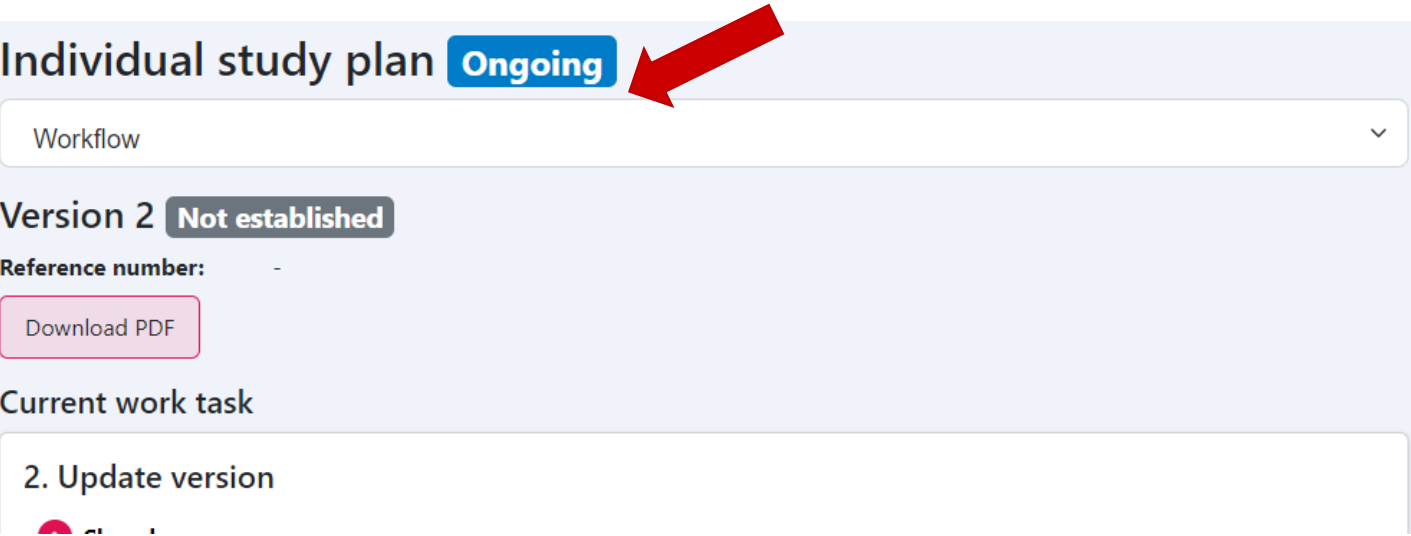

Details about the ISP are divided into different tabs. The handling for each tab is described in the rest of this guide.

The functions in Ladok for staff are the same as in Ladok for students. This guide mainly shows images from Ladok for staff.

In Ladok for staff, the tabs are in the left-hand menu on the page.

In Ladok for students, there is a dropdown list at the top of the page. Here, you choose which tab you are working in.

Basic information

The "Basic Information" tab contains information about the doctoral student. Some details are retrieved from other parts of Ladok, while other information is input by staff or the doctoral student.

Admission To

The panel consists of information retrieved from other parts of Ladok, as well as manually entered information. The following can be added:

- Qualification in the fine, applied and performing arts: Define whether the studies lead to qualification in the fine, applied and performing arts or not. The choice affects which learning outcomes are displayed in the individual study plan.
- Notes can be added.

Study activity and funding (SCB)

Planned study activity and funding

It is possible to enter planned study activity and financing to communicate what is planned for the upcoming semester.

- Calendar half year
- Study Activity: Planned activity for the selected semester is indicated in percentage (up to 100%).
- Study funding: Specify the type of funding from the drop-down list. If multiple study fundings are chosen, they must add up to 100%.

Details may be changed or deleted later on.

Reported study activity and funding

Reported study activity and funding are retrieved from other parts of Ladok. It is currently not possible to automatically change study activity from planned to reported. Reporting is a separate process.

Supervisor conversation

In the "Supervisor conversation" tab, conducted supervision meetings between the doctoral student and the main supervisor/co-supervisor are documented. Both parties can enter and edit information for each meeting.

All supervision meetings are listed on the page, regardless of the ISP version. The version for each meeting is indicated on the page.

Document a supervisor conversation

- Click "New supervisor conversation." Provide the following details:
- Type of conversation: Choose Follow-up conversation, Career conversation, or Other.
- Date: Today's date or past dates may be entered.
- Version: The current version of the individual study plan is displayed.
- Participants: Text field.
- Note: Text field.

Courses and conferences

The page provides a summary of certified results from the doctoral student's mandatory and elective courses. It also displays completed conferences and seminars (individual commitments).

Credited courses or "Other specification" are shown in a separate panel.

There is a separate panel for adding non-credit-bearing activities

Sort results

Results are automatically retrieved from other parts of Ladok and appear under the "Unsorted Results" heading. They need to be manually sorted into an appropriate category.

- 1. For each result: Choose **Sort to heading**
- 2. Select a heading to move it to: Mandatory courses, Elective courses, Conferences, or Seminars.

Unsorted certified results

Calendar half year	Course code	Name	Scope	Status	Ex. date	Certifier	Sort
2021H	FOARB	Research work		Completed	2021-11-21	Eva Ållsmäktig	Sort to heading: ▾
2021V	DL21341	Human-centered Artificial Intelligence	5.0 hp	Completed	2021-02-13	Eva Ållsmäktig	Sort to heading: ▾
2020V		Basic statistics for research students	3.0 hp	Completed	2020-02-20	Eva Ållsmäktig	Mandatory courses Elective courses Conferences Seminars

Planned courses and conferences

To plan upcoming studies, you can enter planned courses and conferences. These are only used within the individual study plan and only as input. When the doctoral student completes a course and receives results, the planned course will not be automatically removed from the individual study plan.

An option to add a planned a course or conference is available within each respective panel.

Mandatory courses

Planned

Learning outcomes

This page contains the learning outcomes according to the Higher education, study regulation of 2007. For each learning outcome, you note the achievements and status.

Learning outcomes are automatically customized according to doctoral/licentiate studies and whether "Qualification in the fine, applied and performing arts" is selected in the [tab "Basic Information"](#) or not.

The entered status is displayed in the row for each learning outcome, to provide an overview when the panel is collapsed.

Timeplan

The page contains information from other parts of the individual study plan. It provides a summary of the doctoral student's completed or planned activities and results per calendar half year.

The following is displayed:

- Milestones in third-cycle studies (planned or completed)
- Study activity and funding (planned or reported)
- Supervisor conversations
- Thesis work (planned or completed activities within the thesis work)
- Part of the thesis work (Part of the thesis work is listed if there are planned activities within the calendar half year. Activities are listed under each part of the thesis work)
- Courses and conferences (Planned or completed mandatory courses, elective courses, credit transfer, conferences, and seminars. Unsorted certified results are not displayed.)
